PROFESSIONAL SUMMARY

Experienced Flutter developer and cloud enthusiast with a strong background in building high-quality, cross-platform mobile applications for iOS and Android. Skilled in creating intuitive and responsive user interfaces, implementing state management solutions such as GetX, Provider, Riverpod and integrating backend services with RESTful APIs and Firebase. Experienced in modern web development using Next.js and the MERN stack (MongoDB, Express.js, React.js, Node.js), capable of building responsive, SEO-optimized web applications with clean architecture and efficient backend systems.

In addition to app and web development, possess practical experience with **AWS Cloud Services**, including EC2, S3, IAM, VPC, and CloudWatch, for deploying, managing, and monitoring scalable cloud environments. Familiar with configuring secure networks, managing access controls, and optimizing resource performance and cost. Comfortable with both client-side and server-side development, as well as deploying applications on AWS, Vercel, Netlify, and Heroku. Passionate about delivering scalable, maintainable, and user-friendly applications supported by modern cloud infrastructure.

WORK HISTORY

Flutter Developer / Flutter Backend Developer, TecClub 02/2025 – Current | Faisalabad

- *Architected scalable and maintainable app structures using advanced state management approaches like GetX, Provider and Riverpod.*
- *Integrated RESTful APIs, Firebase (Auth, Firestore, Storage), and third-party SDKs to enable real-time features and backend connectivity.*

Flutter Developer, APPECIENT 02/2024 – 02/2025 | Faisalabad, Pakistan

- *Implemented custom UI/UX designs with pixel-perfect precision, including smooth animations and full responsiveness across various screen sizes. Developed and optimized diverse mobile applications, including social networking, chat, and rental platforms. Successfully deployed applications to the Google Play Store.*

EDUCATION

Bachelor's degree in Computer Software Engineering, 09/2024 | Faisalabad
Riphah International University

SKILLS

Flutter • Dart • Firebase • Node • Expressjs • Nextjs • MongoDB

Full Stack Project, – Anzatexintl (E-commerce Platform)

Live: <https://anzatexintl.com>  **Admin Panel:** <https://admin.anzatexintl.com/dashboard> 

- Developed a full-stack e-commerce platform using **Next.js (frontend)** and **Node.js + Express.js (backend)**.
- Designed and implemented a secure **RESTful API** for product management, authentication, and order processing.
- Built a separate **admin dashboard** for managing products, users, and orders.
- Deployed the application on **Amazon Web Services EC2**, ensuring high availability and scalability.
- Integrated **Amazon S3** for storing and serving product images efficiently.
- Configured **AWS Identity and Access Management** for secure access control and role-based permissions.
- Implemented domain routing, SSL, and deployment workflows for production readiness.
- Optimized performance and handled backend deployment automation using CI/CD practices (GitHub Actions).
