PROFESSIONAL SUMMARY

Full Stack & Mobile Application Developer with experience building scalable Android, iOS, and web applications using Flutter, Next.js, React, Node.js (Express.js/NestJS), MongoDB, and PostgreSQL. Skilled in developing responsive user interfaces, integrating RESTful APIs and Firebase, and implementing state management using GetX, Provider, and Riverpod. Familiar with native iOS development using Swift and experienced in VPN application development, AWS cloud services (EC2, S3, IAM), and deploying applications on AWS, Vercel, and Netlify. Passionate about writing clean, maintainable code and building secure, high-performance, and user-focused software while following modern software engineering best practices.

WORK HISTORY

Full Stack Developer, Ranksol 07/2026 – Present | Faisalabad

Working as a Full Stack Developer at Ranksol, where I develop and maintain scalable web and mobile applications. I build responsive user interfaces, develop RESTful APIs, integrate databases, and collaborate with cross-functional teams to deliver high-quality software solutions.

Full Stack Developer, Self Employed / Anzatexintl 04/2026 – 07/2026 | Faisalabad

Worked on a live startup project, handling both application development and AWS-based infrastructure.

- Built and maintained full-stack application using Node.js, Next.js, and modern frontend technologies
- Designed and deployed cloud infrastructure on AWS (EC2, S3, IAM, SES)
- Contributed to system architecture decisions for scalability and performance
- Managed deployments, server configuration, and application monitoring

Flutter Developer / Flutter Backend Developer, TecClub 02/2025 – 04/2026 | Faisalabad

- Architected scalable and maintainable app structures using advanced state management approaches like GetX, Provider and Riverpod.
- Integrated RESTful APIs, Firebase (Auth, Firestore, Storage), and third-party SDKs to enable real-time features and backend connectivity.

Flutter Developer, APPECIENT 02/2024 – 02/2025 | Faisalabad, Pakistan

Implemented custom UI/UX designs with pixel-perfect precision, including smooth animations and full responsiveness across various screen sizes. Developed and optimized diverse mobile applications, including social networking, chat, and rental platforms. Successfully deployed applications to the Google Play Store.

EDUCATION

Bachelor's degree in Computer Software Engineering 09/2024 | Faisalabad

Riphah International University Islamabad | Faisalabad Campus

SKILLS

Flutter • Dart • Firebase • Node • Expressjs • Nextjs • Mongoddb • GetX • Provider •

Full Stack Project, – Anzatexintl (E-commerce Platform)

Live: <https://anzatexintl.com>  **Admin Panel:** <https://admin.anzatexintl.com/dashboard> 

- Developed a full-stack e-commerce platform using **Next.js (frontend)** and **Node.js + Express.js (backend)**.
- Designed and implemented a secure **RESTful API** for product management, authentication, and order processing.
- Built a separate **admin dashboard** for managing products, users, and orders.
- Deployed the application on **Amazon Web Services EC2**, ensuring high availability and scalability.
- Integrated **Amazon S3** for storing and serving product images efficiently.
- Configured **AWS Identity and Access Management** for secure access control and role-based permissions.
- Implemented domain routing, SSL, and deployment workflows for production readiness.
- Optimized performance and handled backend deployment automation using CI/CD practices (GitHub Actions).

Full Stack Project, RemoveFlow - Remove Image Background 100% Automatically and Free

Live: <https://removeflow.netlify.app/> 

Remove image backgrounds instantly with **RemoveFlow** - a fast, free, and fully automatic background remover. Upload any photo and let AI detect and remove the background in seconds with clean, high-quality results. No design skills, no manual editing, and no complicated tools required.
